

## The Maui Woman's Club

(Official Report by Club's Press Committee)

(Officially Communicated.)

There was a large attendance at the regular meeting of the Maui Woman's Club on Monday afternoon, April 5, in the Territorial Fair building, at which the President, Mrs. T. B. Linton, presided, and Mrs. Eugene Murphy performed the duties of secretary, the office having been twice made vacant by the absence from the island of Mrs. David Wadsworth and her temporary successor, Mrs. Jack Moir.

Mrs. Steele reported that Civic Improvement Department had been occupied chiefly with the Brighton Up campaign which she thought had made Maui somewhat cleaner if not as clean as it might be. She also stated that the department desired the chair to appoint a committee to meet with the Public Utilities Board when it arrives on Maui, to discuss the electric light problem of Wailuku and Kahului.

Mrs. Sawyer reported continued good work on the part of the Educational Department and mentioned several matters regarding which she said the executive board of the Maui Woman's Club desired information, chief of which were:

1. Whether the teachers enrolled in the department desire the club members to take a more active interest in their schools and have local women act on a committee as godmothers.

In answer to this question Mrs. Sawyer stated that the teachers above referred to were unanimously in favor of such a committee.

2. Whether it would be possible to have separate instruction for children not mentally up to the average.

Mrs. Sawyer stated that the opinion of the teachers was that such instruction was greatly needed and would not be a very difficult problem to cope with.

The distribution of magazines, games, etc., she said, had gone steadily on, 1957 having been distributed during the past month. Mrs. Cooper having resigned as chairman of this committee, Mrs. George Aiken has been appointed in her stead.

Mrs. Sawyer also read the report of the chairman of the School Yard Equipment Committee, Mrs. F. F. Baldwin, from which it would seem that the work of equipping many schools is already underway and de-

inite promise of equipment made for many others. In this connection Mrs. John mentioned St. Anthony's School as being badly in need of playground equipment which it was unable to furnish for itself.

Mrs. Kunewa, chairman of the Music Committee stated that the first meeting of the committee was held on Saturday last and that they had taken up the study of Hawaiian music.

In regard to the humane department the President stated that Miss Couch had accepted the position of chairman of this department. She also stated that a sum of money had been given to the club to be used towards paying an officer for this society.

Mrs. Fleming read the report of the committee appointed to investigate the matter of the cottages being erected near the Malulu Hospital, following which Mrs. Rice moved that a committee be appointed by the chair to draw up a petition urging the Board of Supervisors to acquire, by private sale or condemnation proceedings, the land adjoining the Smith premises now under lease from the Bank of Maui to one Salto. After some discussion this motion carried unanimously.

The President stated that the Honolulu Pageant committee had sent word that they desired the club represented in their pageant and it had been decided that the representatives were to be Mrs. T. B. Linton and Mrs. W. A. Baldwin.

Following this there was an address by Mrs. Close on the necessity of certain kinds of exercise for girls and young women, and the results as she had observed them on certain types of working girls with whom she had been associated in her work. Mrs. Close talked in a very entertaining manner and was followed with much interest by those present.

Mrs. C. O. Hansen's address on "A Club Woman's Responsibilities" was postponed in favor of Mrs. Close, but will doubtless be given at a later meeting.

The President announced that the next meeting would be in charge of the Civic Improvement Department to which the Outdoor Circle of Lahaina is to be invited.

### DANIELS DENIES HE SAID JAPAN WAS MENACE

WASHINGTON, April 2.—Chairman Page of the Senate Naval Committee, today denied a letter from Secretary Daniels denying the report published in various newspapers that Secretary Daniels had told members of the committee that Japan was a menace to the United States.

In his letter, the Naval Secretary said:

"The publication of such a report conveys the impression and is calculated to give a friendly nation a view of the attitude of the Secretary of the Navy and your committee that is wholly at variance with the attitude of the committee and the Navy Department."

"What I stated was that 'our relations with all countries in the Pacific were most friendly and cordial and that I did not believe any nation would be a menace to the United States and I was sure this country would adopt no policy based upon antagonism to any power in the Pacific.'"

"I am sure that you and all members of the committee will regret the misleading publicity that may be misinterpreted by our Japanese allies and friends."

Continuing his letter Secretary Daniels said:

"Development of the naval bases in the Pacific is predicated upon policy of antagonism toward any power in the Pacific, but for national protection and ability to help and protect the rest of the world."

### NOTICE

To whom it may concern: John P. Alexander, who has been soliciting subscriptions to the Maui News is no longer connected in any way with that paper and the letter of authorization to solicit business and to collect and receipt therefor, has been revoked and cancelled.

### Molokai News Notes

Flu situation: Over 250 cases on leeward Molokai.

On the 23rd the Civic Association had a special meeting and appointed three relief committees for work at Halawa, Waialua, Pukoo, Kawela, Kaunakakai and Kualapuu.

Messrs. Fleming and Kalama of Maui were visitors at the meeting, and generously agreed to stand for the expenses of the relief committees. They were as good as or better than their word, and sent at once by sampan mattresses, and other supplies for Halawa, where some 50 persons were down with suitable food or beds.

A chauffeur was supplied for the doctor and several kokuas at the various infected points.

The district nurse who was here on a few days vacation was commandeered on the 23rd for work. At this time the epidemic was pretty well over at Kualapuu and the nurse was reserved for work at Kaunakakai, the relief committee at Pukoo attending to the district east of Kamalo, Judge McCriston taking Kamalo and Kawela.

The 75 cases at Kaunakakai have taken up the nurse's time going the rounds with the doctor, so she has as yet had no time for individual nursing.

All patients except four new ones are convalescing at Halawa. And with the exception of the new milder cases at Kaunakakai, the worst of the epidemic has run its course.

The need of a nurse from now on will be to see that those who are free from fever do not expose themselves to a relapse, by going out too soon, or overeating.

The County has come to the rescue most generously, and the Territorial Board of Health wired up to see if any assistance was needed from there sending up supplies for the doctor.

WASHINGTON, April 2.—Christian A. Herter of New York, a special attaché to the State Department in charge of matters pertaining to the League of Nations, has resigned to become secretary to Herbert Hoover, it was announced here today.

### BANNER YEAR FOR PINES IN THE HAWAIIAN ISLANDS

HONOLULU, April 1.—A. H. Tarleton, secretary of the Pineapple Packers' Association today estimated that the 1920 pack would amount to at least 6,000,000 cases, valued at between \$22,000,000 and \$25,000,000. Tarleton said he was confident that 1920 will prove the banner year in the history of the canners.

### CENTENNIAL FLEET WILL VISIT HILO

HONOLULU, April 2.—The United States warships sent to Hawaii to take part in the centennial celebration at Honolulu will visit other island ports in the course of their stay in these waters. It is announced today. The program will be arranged by Rear Admiral Wiley, in command, and will be announced later.

## Road Up Haleakala Must Come--Albright

National Parks Official Sees Great Future For Islands--Will Recommend Large Development By Government--Anxious For Early Start

HONOLULU, April 7.—"Automobile roads must ultimately be built from sea level to the summits of Mauna Loa and Haleakala, the mountain tops of the Hawaiian National Park," said H. M. Albright, assistant to Park Director Stephen T. Mather and superintendent of the Yellowstone National Park, to the Advertiser last night. The Park Director is leaving on the Matsonia this morning after a brief visit to the islands during which he has crowded more than most travelers. He is away as one of the biggest oosters Hawaii has ever had and, one of the best equipped for spy--ing the truth about these islands.

"The roads which will one day cut from the palm fringed shores of the mountain sides to the heights where the clouds will be the wonder ways of the world. Take the up Mauna Loa. I saw the most awful sunrise I have ever seen. The 10,300 foot level, while Haleakala and the Kau flow made two reason stains on the slowly revealed landscape. Across the plateau, so close that you could almost touch it, seemed, was Mauna Loa, capped in snow, while behind rose the streaked dome of Mauna Kea, and off toward Hilo rolled a cloud.

Saw sunset from Haleakala, and it was an inspiration that one can never forget. Make these island summits accessible to those who cannot stand the long climb on foot or on horses and you will open them to the marvels of the world.

"Sound To Come must first build a new horse road to the summit of Mauna Kea. The road, come later but they must come. Logical place for the road up Haleakala is apparently on the leeward side but the practicable hotel site is at Olinda so we have a problem there. Building a road will be easier than the surfacing for rain-washing is going to be a handicap. In the national parks of the mainland our policy has been to build roads, and open up the parks even if we did not have money for the best surfacing. Mileage and later improvement is the policy.

"We want to follow here the same old policy of development that we are carrying out with the older parks. Believe that the development of the Kilauea region should be perhaps the first step but the others will follow closely.

"It is the policy of the department to regulate the type of service and rates of hotels and concessions in the parks. We also take an interest in the architecture of new structures. To a certain extent we can influence rates and service to and outside the park by inclusion or non-inclusions of such agencies in our advertising and recommendations.

"The land transfers at Kilauea are well advanced and practically settled except for the preparation of the legal

## Death Calls F. W. Hardy

A life of usefulness was brought to a close shortly before 7 o'clock last Saturday evening, in the death of Frederick W. Hardy, of Makawao. The passing away was at the Pain hospital where he had been in a critical condition for several days. The funeral, very largely attended, occurred on Easter Sunday afternoon from the Makawao union church, interment being in the Makawao cemetery. He was in his 62nd year.

Frederic W. Hardy, principal of the Makawao public school for 30 years, was born of early New England ancestry on January 23, 1859, in Boston, Massachusetts. He was the son of George Dana Boardman and Olive (Andrews) Hardy. He was educated in the grammar and high schools of Malden, Mass., and in 1881 received degree of Bachelor of Arts cum

laude from the University of Massachusetts. On December 3, 1896 he married Lillian Hitchcock Aiken, daughter of Dr. P. J. Aiken, at Pala, Maui who survives him. He also leaves one child, Hollis Aiken Hardy.

Mr. Hardy came to the Islands in 1882 on account of health, after a most severe attack of malaria-typhoid fever. He sailed from New York to San Francisco, via the Isthmus of Panama, by the Pacific Mail Steamship Company, and thence by the schooner "Consuelo" to Kahului, Maui, arriving in April, 1883.

In September, 1883, he was appointed vice-principal of the Wailuku school and was the first teacher to bear such a title in the kingdom. The late D. D. Baldwin was at that time inspector-general of schools and C. R. Bishop, president of the board of education.

1884-1888 he was instructor at Lahaina Seminary of which H. R. Hitchcock was principal. He taught universal history, algebra, geometry, etc. He became principal of the Makawao school in September, 1888, and has held that position without interruption till the time of his death.

In provisional government days, in July and August, 1894, as chairman of the boards of registration and examiner, together with C. H. Dickey and J. W. Kalua, he visited every town and village on the Islands of Maui, Lanai, and Lanai, registering voters and granting citizenship to citizens of the so-called "alien" element.

He was president of the Makawao pro-tem republican club since annexation of the territory.

He was a member of the Harvard Club of Hawaii, and trustee of Maunaloa Seminary.

He was a charter member of the Maui Teachers' Association and president of it several times. He was recently president of the newly organized Maui principals' club.

Mr. Hardy had not been well for a long time prior to his death, but was not obliged to give up his school work until a few weeks ago.

### TENNIS TOURNEY MAY 13

STANFORD UNIVERSITY, April 2.—Plans are under way to promote a Pacific Coast Conference tennis tournament on the Stanford courts on May 13-15. If the most goes through, Oregon, Washington, Oregon Agricultural College, and California will enter teams.

Papers, The inclusion of the Volcano House property in the park is under consideration. The Kau flow district and the Thurston lava tubes should certainly be in the park.
